2.5 mins was deducted from everyone's time when calculating the league scores for courses using post start master maps. This was an approximate time taken marking courses on maps after starting in order to provide a 'running time' more compatible with other events where there have been pre-printed maps (and hence keep the score more compatible with everyone's handicap time and other events).

Points in shaded cells are not one of a competitor's best nine scores for this league season and are therefore not included in the total.

All performances in Season 1 were used to calculate a median performance for the season.

Season 2 handicap was then calculated as 1/3 of Season 1 handicap + 2/3 Median Season 1 performance.

Everyone who had at least one run during season 1 has been included in the handicap calculation.

Anyone who has not had any runs in Season 1 has not had a handicap calculated.

Handicaps based on Season 1 and one event in Season 2 will be calculated after one run from any of these individuals in a Season 2 counting event.

As with Season 1, handicaps for new competitors will be calculated after 2 runs or based on results provided to the Club Captain (maireandroy.home@virgin.net)
